

Ms. George:

Thank you for the opportunity to provide input regarding the record collection OMB 0651-0012, which covers the recognition and conduct of individuals who represent others before the USPTO.

Please note that the abstract references 37 CFR 10.14, which no longer exists.

I would like to comment on the following aspects of the information collection:

1. The information collection references cover pages and forms often used in correspondence to OED, but fails to mention the certificate of mailing under 37 CFR 1.8. The certificate of mailing is referenced in the General Requirements Bulletin for applicants to use when submitting documents to OED. *See* GRB at 27. Additionally, applicants are instructed to include a self-addressed, postage-paid postcard in order to received acknowledgement of their application. *See* GRB at 17.
2. The change of address form has not been included in this collection, but is required of all individuals who are registered to practice before the USPTO in patent matters. *See* 37 CFR 11.11(a)(1).
3. The term "roster" and "register" appear to be used interchangeably, but only "roster" is defined. *See* 37 CFR 11.1.

Thank you for the opportunity to provide feedback.

Emil Ali
