

United States of America

United States Patent and Trademark Office

TEN TECHNIP ENERGIES

Reg. No. 6,816,764

Registered Aug. 16, 2022

Amended Jul. 25, 2023

Int. Cl.: 37, 42

Service Mark

Principal Register

Technip France (FRANCE société par actions simplifiée (sas))
6-8 Allée de l'Arche,
Faubourg de l'Arche,
ZAC Danton, COURBEVOIE, FRANCE F-92400

CLASS 37: Building construction; construction of public works and rural works, namely, pipeline construction, concrete pouring and forming for building and other commercial or public concrete structures, road paving, road construction, road sealing and stripping, construction of underground utilities and housing pads, construction of oil and gas, petrochemical and energy refineries and plants; rental of construction tools and equipment; maintenance and cleaning of buildings, premises, and floors; upkeep and cleaning of various objects, namely, components of oil and gas production and processing installations, components of chemical, biological and industrial processing installations; laundering; furniture, instrument and tool repair; drilling of wells; pier breakwater building; erection of naval scaffolding; road paving; airplane maintenance and repair; burner maintenance and repair; rental of construction equipment; heating equipment installation and repair; air conditioning apparatus installation and repair; construction consultation; construction of buildings; construction management; building construction information; demolition of buildings; scaffolding; cleaning of exterior surfaces buildings; installation and repair of electric apparatus, namely, motors and heating apparatus; warehouse construction and repair; building sealing; mining extraction; drilling of deep oil or gas wells; well drilling services on land and at sea; furnace installation and repair; fire alarm installation and repair; irrigation devices installation and repair; installation of building insulation; rental of cranes for construction purposes; rental of drainage pumps; installation, maintenance and repair of machinery; masonry; shipbuilding; street cleaning; pipeline construction and maintenance; harbor construction; installation and repair of refrigeration apparatus; repair information in the field of oil and gas production and processing components, and chemical, biological and industrial processing components; rustproofing; underwater construction; underwater repair apparatus; factory construction; oil field services, namely, maintenance and repair of wellhead, fluid control and metering systems for land and subsea oil and gas drilling, production, refining and transportation

CLASS 42: Oil and geological prospecting; services of engineers, namely, mechanical, civil, electrical, chemical and petroleum engineering services; professional consulting in computers; mechanical, civil, electrical, chemical and petroleum engineering not for building; scientific laboratory services; mechanical and chemical engineering for activities in industrial fields, assemblies and units and turnkey industrial facilities; structural engineering for renovation, repair and modernization of industrial complexes and units; engineering design applied to outfitting and tertiary equipment; petroleum engineering services; continental and underwater civil engineering services; conducting of scientific feasibility studies, research and development of new processes and products for others; provision of technical studies of new processes and products for others; geological estimations in the field of engineering and exploitation of oil fields; searching for oil, gas and ore deposits in general; scientific and industrial research in the field of computers, engineering, design, construction, project management and process

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

technologies; construction drafting; oil-well testing; quality control for others; industrial design; consulting services in the field of energy saving; measuring, namely, calibration; computer system analysis; water analysis; architectural services; energy auditing; chemistry consultation services; chemical research; chemical analysis; computer system design; conversion of data or documents from physical to electronic media; conversion of computer programs and data, other than physical conversion; surveying; underwater exploration; geological prospecting; geological surveys; geological research; analysis for oil-field exploitation; oil-field surveys; scientific information and consultancy in relation to carbon offsetting; software design; updating of software; rental of computer software; computer software maintenance; installation of software; computer software consultancy; testing of materials; mechanical research; programming for computers; oil prospecting; physics research; technical project study, namely, conducting scientific feasibility studies in the field of new technologies; research in the field of environmental protection; bacteriological research; technical research in the field of computers, engineering, design, construction, project management and process technologies; biological research; recovery of computer data; hosting of servers; information technology consultancy; technical consulting and engineering services in relation to testing, calibration, reading and data analysis of petroleum metering systems; subsea civil engineering; oil field services, namely, engineering of wellhead, fluid control and metering systems for land and subsea oil and gas drilling, production, refining and transportation

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 10-14-2019 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1545520 DATED 04-09-2020, EXPIRES 04-09-2030

No claim is made to the exclusive right to use the following apart from the mark as shown: "ENERGIES"

SER. NO. 79-291,625, FILED 04-09-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
