CLASS 9: Safety, security, protection and signalling devices, namely, alarms and warning equipment other than for vehicles in the nature of security alarms, personal security alarms, safety alarms in the nature of fire alarms, warning alarms in the nature of fire alarms and impact alarms, electric warning lights; safety, security, protection and signalling equipment in the nature of alarms and warning equipment other than for vehicles, namely, security alarms, personal security alarms, safety alarms in the nature of fire alarms and impact alarms, warning alarms in the nature of fire alarms and impact alarms, electric warning lights; alarms in the nature of sound alarms and fire alarms and warning equipment, namely, warning alarms in the nature of fire alarms and impact alarms; navigation, guidance, tracking, targeting and map making devices, namely, GPS navigation devices, GPS tracking devices, satellite aided navigation systems; measuring, detecting and monitoring instruments, indicators and controllers in the nature of measuring sensors for measuring speed and distance, compasses for measuring distances and direction, indicators, namely, speed indicators, digital indicators for measuring speed and distance sensors and detectors, namely, motion sensors and motion detectors; distance, speed and dimension measuring instruments, namely, distance measuring apparatus; safety alarms, namely, security alarms, personal security alarms, safety alarms in the nature of fire alarms and impact alarms, warning alarms other than for vehicles in the nature of fire alarms and impact alarms, safety apparatus and devices for the prevention of accident or injury in the nature of alarms and warning equipment other than for vehicles, namely, security alarms, personal security alarms, safety alarms in the nature of fire alarms and impact alarms, warning alarms in the nature of fire alarms and impact alarms, electric warning lights; communication hubs; personal protective goods, namely, protective clothing against accidents, chemicals, and fire, high visibility protective safety clothing for use against accidents, chemicals, and fire, protective gloves for industrial use, protective footwear for industrial use, protective headwear in the nature of safety helmets to protect against accidents, protective eyewear, protective glasses, protective visors in the nature of protective industrial visors, protective face masks in the nature of protective industrial face masks and protective industrial face coverings for safety purposes for use in industrial settings, and protective screens for use in industrial settings in the nature of protective industrial screens made from plastic for use in industrial settings in the nature of plastic protective industrial face shields

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

used as safety equipment to protect individuals in the workplace and prevent them from accidents, injury, or fire; personal protective equipment, namely, protective clothing against accidents, chemicals, and fire, high-visibility protective safety clothing for use against accidents, chemicals, and fire, protective gloves for industrial use, protective footwear for industrial use, protective headwear in the nature of safety helmets to protect against accidents, protective eyewear, protective glasses, protective visors in the nature of protective industrial visors, protective face masks in the nature of protective industrial face masks and protective industrial face coverings for safety purposes for use in industrial settings, and protective screens for use in industrial settings in the nature of protective industrial screens made from plastic for use in industrial settings in the nature of plastic protective industrial face shields used as safety equipment to protect individuals in the workplace and prevent them from accidents, injury, or fire; fire extinguishing apparatus; firefighting apparatus, namely, fire blankets and fire extinguishers; fire detection apparatus, namely, fire sensors and fire alarms; digital signage; directional digital signage luminous or mechanical for vehicles

CLASS 10: Medical apparatus and instruments for monitoring vital signs, physical injuries, blood pressure, heart rate related to viruses, illnesses and injuries; medical gloves; surgical gloves; medical devices for use in treating viruses, and physical injuries and healthcare goods for treating viruses, illnesses and injuries, namely, catheters, stents, sutures, surgical instruments, visors in the nature of protective visors for medical use, glasses in the nature of protective glasses for medical use, masks in the nature of surgical masks and face masks for use by healthcare providers, protective screens for medical or surgical purposes, namely, screens in the nature of portable fabric or plastic sanitary privacy screens for use in hospitals and during surgeries, medical and surgical gowns and drapes; protective clothing for medical or surgical purposes, namely, clothing especially for operating rooms; protective clothing for medical or surgical purposes for use in healthcare settings, namely, surgical gowns, medical gowns, protective visors, masks in the nature of surgical masks and face masks for use by healthcare providers, protective screens for medical or surgical purposes, namely, screens in the nature of portable fabric or plastic sanitary privacy screens for use in hospitals and during surgeries

CLASS 42: Scientific and technological services, namely, scientific research, analysis and testing in relation to industrial safety and workplace safety; scientific design, research and development services in the field of industrial safety and workplace safety; design engineering services; safety technology research services in the field of industrial safety

The mark consists of the stylized word "SAFEGURU.COM" with the term ".COM" below the letters "RU"; above the letter "G" is a design consisting of an oval design and an infinity symbol.

PRIORITY DATE OF 08-10-2020 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1585063 DATED 01-27-2021,
EXPIRES 01-27-2031

SER. NO. 79-308,291, FILED 01-27-2021

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
